RE/MAX of Grand Rapids

COVID-19 PREPAREDNESS & RESPONSE PLAN
Prepared: May 22, 2020

COVID-19 PREPAREDNESS & RESPONSE PLAN

RE/MAX of Grand Rapids takes the health and safety of our employees seriously. We want you to know that we are committed to reducing the risk of exposure to COVID-19 and we are ready to provide a healthy and safe workplace for our employees, customers and guests.

Our plan is based on information and guidance from the Centers for Disease Control (CDC) and the Occupational Health and Safety Administration (OSHA) at the time of its development. Because the COVID-19 situation is frequently changing, the need for modifications may occur based on further guidance provided by the CDC, OSHA, and other public officials at the state or local levels.

Note: RE/MAX of Grand Rapids may amend this plan based on changing requirements and the need of our business.

The spread of COVID-19 in the workplace can come from several sources:

- Co-workers
- Customers
- Guests - visitors/vendors/family members
- The General Public

Our employees fall into one or more of the following categories as defined by OSHA:

- Lower exposure risk (the work performed does not require direct contact with people known or suspected to be infected with COVID-19 or frequent close contact with the public)
- Medium exposure risk (the work performed requires frequent and/or close contact with people who may be infected with COVID-19, but who are not known COVID-19 patients, or contact with the general public in areas where there is ongoing community transmission)

COVID-19 WORKPLACE COORDINATORS (TASK FORCE)

RE/MAX of Grand Rapids has designated the following staff as its COVID-19 Workplace Coordinators:

| | | | |
|------------------|----------------------|----------------------------|--------------|
| Rachael Veldkamp | Broker Owner | rachael.veldkamp@remax.net | 616-648-0295 |
| Dave Veldkamp | Dir. of Dev. Owner | daveveldkamp@remax.net | 616-460-6123 |
| Megan Sikkenga | Dir. of Office Sol. | megan.sikkenga@remax.net | 269-921-5080 |

The Coordinators responsibilities include:

- Staying up to date on federal, state and local guidance
- Incorporating those recommendations into our workplace
- Training our workforce on control practices, proper use of personal protective equipment, the steps employees must take to notify our business of any COVID-19 symptoms or suspected cases of COVID-19
- Reviewing HR policies and practices to ensure they are consistent with this Plan and existing local, state and federal requirements

RESPONSIBILITIES OF RE/MAX of GRAND RAPIDS SUPERVISORS & BROKERAGE STAFF

All RE/MAX of Grand Rapids managers/supervisors must be familiar with this Plan and be ready to answer questions from employees. Additionally, RE/MAX of Grand Rapids expects that all managers/supervisors will set a good example by following this Plan. This includes practicing good personal hygiene and job-site safety practices to prevent the spread of the virus. Managers and supervisors must encourage this same behavior from all employees.

RE/MAX of Grand Rapids has posted a self-screening protocol at entrances for all employees or contractors entering the worksite, including, at a minimum, a questionnaire covering symptoms and suspected or confirmed cases of COVID -19.

RE/MAX of Grand Rapids will:

- Increase facility cleaning and disinfection to limit exposure to COVID-19, especially on high-touch surfaces (e.g., door handles), paying special attention to parts, products, and shared equipment (e.g., tools, machinery, vehicles)
- Adopt protocols to clean and disinfect the facility in the event of a positive COVID-19 case in the workplace
- Make cleaning supplies available to employees upon entry and at the worksite and provide time for employees to wash hands frequently or to use hand sanitizer

- If an employee is identified with a confirmed case of COVID-19, within 24 hours, notify both:
 1. The local public health department, and
 2. Any co-workers, contractors, or suppliers who may have come into contact with the person with a confirmed case of COVID-19

- Train employees on how to report unsafe work conditions

UPDATE AS OF JULY 1 2021

Our offices opened to customers effective Monday, June 15, 2020. The following restrictions changed in July of 2021 and are listed below and will remain in place until further notice of a change:

- A self-screening protocol at entrances has been posted for all employees, contractors, and customers entering the worksite
- Masks are no longer required regardless of vaccination status
- Daily sign-in of employees / agents no longer required
- Meeting rooms will be sanitized by Office Administrators after each use

UPDATE AS OF May 17 2022

- Meeting rooms will be sanitized by Office Administrators periodically throughout the day

RESPONSIBILITIES OF EMPLOYEES

We are asking each of our employees to help with our prevention efforts while at work. RE/MAX of Grand Rapids understands that in order to minimize the impact of COVID-19 at our facility, everyone needs to play his or her part. While here at work, all employees must follow these best practices for them to be effective. Beyond these best practices, we require employees to report to their managers or supervisors immediately if they are experiencing signs or symptoms of COVID-19, as described below. If employees have specific questions about this Plan or COVID-19, they should contact Dave Veldkamp daveveldkamp@remax.net 616-460-6123.

OSHA and the CDC Prevention Guidelines

OSHA and the CDC have provided the following preventive guidance for all workers, regardless of exposure risk:

- Frequently wash your hands with soap and water for at least 20 seconds
 - When soap and running water are not available, use an alcohol-based hand rub with at least 60% alcohol
- Avoid touching your eyes, nose, or mouth with unwashed hands

- Follow appropriate respiratory etiquette, which includes covering for coughs and sneezes
- Avoid close contact with anyone who is sick

Additionally, employees must familiarize themselves with the symptoms and exposure risks of COVID-19. The primary symptoms of COVID-19 include the following:

- Dry cough;
- Shortness of breath or difficulty breathing

Or at least two of these symptoms:

- Fever (either feeling feverish or a temperature of 100.4 degrees or higher);
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Individuals with COVID-19 may also have early symptoms such as, diarrhea, nausea/vomiting, and runny nose.

If you develop a fever and symptoms of respiratory illness, such as an atypical cough or shortness of breath, do not report to work. You must also notify your supervisor immediately, and consult a healthcare provider. Similarly, if employees come into close contact with someone showing these symptoms, they must notify their supervisor immediately and consult a healthcare provider. We have the responsibility to work to identify and notify all employees who have close contact with individuals with COVID-19 symptoms. "Close contact" is not brief or incidental contact with a person with COVID-19 symptoms.

The CDC defines "close contact" as either:

- Being within roughly six feet of a COVID-19 infected person or a person with any symptom(s) for a "prolonged period of time;" (the CDC estimates range from 10 to 30 minutes, or,
- Having direct contact with infectious secretions of a COVID-19 infected person or a person with any COVID-19 symptom(s) (i.e., being coughed on)

Procedures for if an employee or agent is exposed to someone with COVID-19 and/or tests positive for COVID-19

If you are exposed to someone with COVID:

- You have to wear a mask in our offices for 10 days after exposure regardless of your vaccination status.
 - You may stop wearing a mask if you provide a PCR test 3-5 days after the exposure and receive a negative test result.
- You may not come into the office if you are displaying symptoms of COVID-19 if you have been exposed.

- ▶ Rapid Tests do not count per CDC Guidelines
- If you wait the 10 days you may return without taking a test, so long as you do not have any symptoms

If you HAVE COVID:

- If you test positive for COVID-19 and have recently been in the office please let us know so we may notify Agents and Staff of possible exposure. You may not come back into the office for a minimum of 5 days from day 1 with no fever or symptoms and a negative test.
 - Day 1 is the first full day after symptoms appeared.
 - Once you return to the office, you need to wear a mask until day 10.
- As soon as you are aware of your positive COVID case you must call either your Office Admin to let them know, Megan Sikkenga, or Rachael Veldkamp
 - We are required to notify the Health Department and send an anonymous Email out to the brokerage
 - We are not allowed to disclose your identity, however, if you have had close contact with anyone at work in the 3 days prior to your positive test, it would be best for you to notify those individuals

Actively encourage sick employees to stay home:

- RE/MAX of Grand Rapids will follow state & federal guidance for return to work
- Guidance from the employee will also be considered

If an employee or agent has a confirmed case of COVID-19, RE/MAX of Grand Rapids ensures the following:

- We will communicate with the company without exposing the identity of the individual
- We will work with our local health department to provide them with the name of any identified employees that may have been exposed
- RE/MAX of Grand Rapids will follow CDC and State guideline protocols for return to work, including workplace contact tracing and CDC-recommended cleaning and disinfecting in all affected areas
- We will perform increased environmental cleaning and disinfection
 - Employees should sanitize their work areas upon arrival, throughout the workday, and immediately before leaving for the day
 - We will all routinely clean and disinfect all frequently touched surfaces in the workplace, such as workstations, keyboards, telephones, handrails, and doorknobs
 - RE/MAX of Grand Rapids provides disinfectant supplies so that commonly used surfaces (for example, doorknobs, keyboards, copiers, desks, other work tools and equipment) can be wiped down regularly
- Employees at a higher risk for serious illness due to COVID-19 will be encouraged to work remotely
 - If working remotely is not possible, additional precautions will be put in place to ensure their safety, including working in separate workspaces
- Monitor and respond to absenteeism

- We have a flexible work environment where individual departments have the ability to work remotely and at different times by appointment and on a case-by-case basis when needed
- Plans are developed based by department to continue essential business functions in the event higher than usual absenteeism occurs

This Plan is based on information and guidance from the CDC and OSHA at the time of its development. The safety of our employees and visitors remain the top priority at RE/MAX of Grand Rapids. We recognize that all individuals are responsible for preventing the spread of COVID-19 and reduce the potential risk of exposure to our workforce and visitors. As the COVID-19 outbreak continues to evolve and spread, RE/MAX of Grand Rapids is monitoring the situation closely and will update our guidance based on the most current recommendations from the CDC, World Health Organization (WHO), OSHA and any other public entities.
